404200 / CLIENT ONBOARDING CHECKLIST

AMSA Client Access & Content Checklist

Everything needed to manage AMSA's website, SEO and social channels.

START HERE

The first six items unlock the website, domain and account setup. AMSA keeps primary ownership; 404200 works through named administrator access.

1. Access, ownership and security

[ ] **Create Ahmad@amsa.com.cy.** Set up the domain email and confirm that Ahmad can send, receive and recover the account.

[ ] **Domain registrar and DNS.** Invite 404200 with administrator access to the service that controls amsa.com.cy and its DNS records.

[ ] **SiteGround.** Provide owner-approved collaborator or administrator access to hosting, backups, files, databases and staging.

[ ] **WordPress.** Create a named administrator account for 404200 and share the current theme, Elementor Pro and premium-plugin licence details.

[ ] **Connected website services.** Provide access to Cloudflare or another CDN, SMTP or form-delivery tools, cookie tools and current backup services where used.

[ ] **Secure recovery.** Keep AMSA as primary owner, confirm a recovery email and mobile number, enable two-factor authentication and use invitations or a shared password manager for access.

2. Existing profiles and measurement

[ ] **Social accounts.** Grant administrator access to every existing account, including Instagram, Facebook and Meta Business Suite, LinkedIn, YouTube, Pinterest, Vimeo, Houzz and any earlier studio profiles.

[ ] **Google presence.** Grant access to Google Business Profile, Google Search Console, Google Analytics 4 and Google Tag Manager.

[ ] **Other search tools.** Share Bing Webmaster Tools, Microsoft Clarity, Apple Business Connect and any directory or map listings already claimed.

[ ] **Advertising and archives.** Share existing ad accounts, past campaign reports, content calendars, post libraries and performance reports where available.

[ ] **Previous suppliers.** Introduce the current developer, hosting contact or marketing supplier when a handover, licence transfer or technical explanation is needed.

3. Complete project package

[ ] **Project record.** For every project: approved name, city and country, design and completion dates, status, project type and permission to name the client.

[ ] **Scope and specifications.** AMSA's role and services, site and floor area, units or floors, public budget range if relevant, main materials, systems, sustainability features and other publishable specifications.

[ ] **Design story.** The brief, main challenge, concept, design response and the result in clear language.

[ ] **Credits.** Project architects and team, client, consultants, contractor, landscape and interior teams, suppliers, visualisers and photographer.

[ ] **Visual files.** Original high-resolution photography and video, plans, sections, diagrams, drawings and preferred hero images, organised by project.

[ ] **Captions and rights.** Image captions, photographer credits, usage permissions and any limits on websites, social media, awards or editorial submissions.

[ ] **Recognition.** Awards, shortlistings, exhibitions, publications, press links and testimonials with dates and source details.

[ ] **Privacy and timing.** Mark private addresses, confidential clients, unpublished work, embargo dates and any material that requires special approval.

4. Brand, business information and approvals

[ ] **Brand files.** Provide vector and high-resolution logos, colour values, fonts, brand guidelines, presentation templates and current brochures.

[ ] **Practice details.** Confirm the legal and trading name, office address, map pin, phone, public email, opening hours, service areas and core services.

[ ] **People and credentials.** Provide approved biographies, roles, headshots, memberships, registrations, awards and speaking or teaching profiles.

[ ] **Website content.** Share approved service copy, team text, policies, downloadable files, enquiry-form recipients and any English or Greek language requirements.

[ ] **One approver.** Name the main AMSA contact and a backup contact who can provide consolidated feedback and written approval.

[ ] **Publishing rhythm.** Confirm typical approval time, priority projects, upcoming launches, awards, events and any topics AMSA wants to lead with.

[ ] **Lead routing.** Confirm who receives website enquiries and social messages, plus the preferred response route for new business opportunities.

SECURE HANDOVER
Use account invitations whenever possible. Share any required password through a password manager or another agreed secure channel, with recovery ownership kept by AMSA.
